

**ARIZONA SCHOOL FOR THE ARTS
COVID-19 FACE COVERING POLICY
Revised 8.12.2021**

Arizona School for the Arts (the “School”) is implementing this COVID-19 Face Covering Policy to help protect our students, our staff, and our school community. This policy applies to all enrolled students, faculty, staff, and visitors to campus.

When Face Coverings Are Required

The School requires all students over the age of five, faculty, staff and visitors to wear face coverings that comply with this policy and the School’s dress code standards whenever they are inside on school grounds during school hours, in school-provided transportation or attending an indoor school sponsored event.

Exceptions

Subject to and in accordance with public health guidance, the School will not require students to wear face coverings under the following limited circumstances:

- When the student is eating or drinking;
- When the School determines, in its sole discretion, that students can socially distance – i.e., sustainably maintain at least 6 feet of separation from other students or staff;*
- If the student has a documented medical or behavioral condition or disability that makes them unable to wear a face covering (e.g., has trouble breathing, severe respiratory impairments, sensory concerns or tactile sensitivity, or is unable to remove the face covering without assistance); or
- If the student is unconscious, incapacitated, or otherwise unable to remove the mask without assistance.

The School will accept a notarized waiver from parents, faculty or staff to opt out of this policy. Forms are available in the school office.

Acceptable Face Coverings

A face covering is acceptable only if it meets current public health guidance and:

- Completely covers the nose and mouth;
- Fits snugly but comfortably against the side of the face;
- Is secured with ties, ear loops, or another reliable method;
- Are made to sufficiently block respiratory droplets from permeating the face covering; and

- Allows the user to breathe without restriction.

Students may *not* use any face covering that incorporates a one-way valve that is designed to facilitate easy exhaling. The School encourages students to leave medical grade masks (i.e. N95, KN95, or other masks intended for a health care setting) for those serving in front-line health care settings.

Face Shields: Although not required, the School will allow students to wear face shields *in addition* to face masks. Wearing a face shield without wearing a mask is not permitted unless approved by the School; provided, however, if a face shield is used without a mask, the face shield must wrap around the sides of the wearer’s face and extend to below the chin.

Provision of Face Coverings

Students are expected to bring their own face coverings to School that comply with the requirements set forth above; however, the School will provide students with a disposable face covering if they forget theirs or are otherwise unable to procure a face covering of their own.

Adaptations and Alternatives

In accordance with public health guidance, as well as applicable disability laws and guidance, the School will consider adaptations and alternatives to a student being required to wear a face covering, including for specialty classes and for students with disabilities.

Enforcement and Non-Retaliation

Failure to comply with this policy may result in disciplinary action in accordance with the School’s disciplinary policies and procedures.

The School will not tolerate any bullying, harassment, or discrimination arising from or related to students wearing a face covering.

Policy Subject to Change

The School may modify or rescind this policy at any time, in its sole discretion, and without advanced notice in order to adapt to changing public health guidance, legal obligations, and operational needs.

If any part of this policy conflicts with applicable local, county, state law, regulation, or public health guidance, the School will comply with the applicable law, regulation, or public health guidance.
